"The South 40"

by JAMES A. SMITH
EXTENSION AGENT

There's a lot of gardening going on. Even some have blooms on their tomatoes, but they were bought that way.

There's one plant missing that I've heard little comment about and that's nasturtiums.

A unique feature of nasturtiums is that some parts of this ornamental plant are edible. The young flower buds and unripe seeds have a pleasant pungent flavor. The round leaves have a peppery flavor and may be used in sandwiches with cheese or bologna.

So if it's variety you are looking for, don't neglect the nasturtium or as it's sometimes called, Indian Cress.

* * *

About ten percent of the soil samples coming into the lab request lime tests only. This is OK, and this is the information the landowner gets. However, the time involved in testing a soil sample is preparation. Once a sample has been prepared for testing, it takes very little additional time to run the complete test.

Looks to me that the land owner is cheating himself by failing to get all the information he can about his soil.

* * *

There's an apparent growing interest in marketing cattle through the organized feeder sales. Within recent weeks a number of cattlemen have asked, What do I do to put my cattle in the sale?"

Hugh Braford, director of sales, or I will be glad to outline what procedure you'll need to follow.

* * *

This past week hogmen received a questionnaire concerning hog production intentions. This effort is being made to determine the feasibility of a hog price pigsale. Hogs offer some of the best opportunities in farming today.

* * *

We must be in for another corn crop. Several cattlemen and dairymen are making plans to expand silage facilities. Some have already let contracts.

* * *

On your travels if you see some fields of small grain and what's dead, you'll be able. A lot of spraying was done last week and it's already showing color. This is one step in the operation of sod-planted corn.

* * *

Barley continues to be a good crop as a grain or silage. It also works well when planning a double crop system.

Based on a three year test of several barley varieties, yields can be expected of about 7200 pounds of dry matter or the equivalent of eight tons of silage per acre.

* * *

The question comes up, should we feed a liquid or a dry protein supplement to cattle. Most liquid supplements use urea as a carrier and source of energy, urea as a source of nitrogen, minerals, vitamins and drug additives. Tests at Purdue University showed that animals fed liquid supplements perform similarly to those cattle given dry supplements, feeding one over the other is a matter of manage-

Fourth Graders Remember "Earth Day"

These 4th graders, together with their teacher, Mrs. Mary Raynor and teacher's aide, Mrs. Virginia Stratton took part in "Earth Day" activities Wednesday, April 22 by raking, picking up trash and generally beautifying the front lawn of Appomattox Primary School. They also carred out a "clean-up" campaign at home, viewed film strips on conservation, had a classroom discussion and drew and colored pictures of their own ideas about a cleaner America. Shown with trash cans, rakes, and posters are (front row left to right): David Mosely, Paul Napier, Keith Tweedy, Dennis Pennix, Eddie Doss, Charlie Reynolds, James Bryant, Donald Carrico, George Trent, David Booker, Willard Fleshman, William Dixon and Clyde Ferguson. (Back row left to right): Ruby Robertson, Sharon Neighbors, Teresa Litchford, Cheryl Franklin, Brenda Hamlett, Frank Bailey, Glen Hamlette and Sylvester Booker. (Absent from picture): Charles Abbitt, Quinton Davis, Brenda Goin, Dolly Thompson, Wanda Thompson.

Invited To Woman's Day Program

The general public is cordially invited to attend the 19th annual Woman's Day program sponsored by the Ladies Pastors Aid Club of the Galilee Baptist Church this first Sunday in May at 2:30 p.m. A special invitation is given to all members and friends to worship at the regular morning service, eat dinner at the close of the morning worship and remain until the special program. The morning service will have members of the Delata Sigma Theta Sorority of Lynchburg, as special guests. The pastor of the church will deliver a special message. The speaker for the afternoon service will be Miss Fannie Wormack, a retired school teacher of the Dunbar High School Faculty of Lynchburg.

A large crowd of relatives and friends attended the funeral services last Sunday evening at the Canaan Baptist Church for the late Mr. John Edward Statham of Baltimore, Md. at 2 p.m. The Rev. R. Q. Lawing, officiated and delivered the eulogy. Special music was rendered by members of the Canaan Church choir and several members of local choirs. A solo was rendered by Miss Lillie Stevens. Resolutions were read from the Canaan Baptist Church and from many friends of Baltimore. The floral designs were in large numbers. Burial was conducted in the family cemetery.

An overflow crowd attended the dedication services of the new Long Mountain Baptist Church of Concord last Sunday with all day services.

Funeral services were held at the Promise Land Baptist Church last Tuesday at 4 p.m. for the late Mrs. Nellie Petty Haliburton of Appomattox. Mrs. Petty was a life long resident of Appomattox. She was born August 10, 1893 and died in the Memorial Hospital, Lynchburg, April 25 at 4:30 p.m. after a confinning sickness for several weeks.

She held membership in the Promise Land Baptist Church. She had been in declining health for the past 12 years. She never complained. She was always grateful for all acts of kindness. Rev. Lawing delivered the eulogy and special music was rendered by the church choir. A special solo was rendered by Mr. Lindsay Fleshman.

She leaves the following to mourn their loss: 5 sons, 8 daughters, 26 grandchildren, 27 great grand children, 2 half sisters, 4 daughters-in-law, 4 sons-in-law and a host of other relatives and friends. West Funeral Home was in charge of arrangements.
